Why can't I see my course in Canvas?

If you've successfully logged into Canvas but see a blank dashboard, but you have already enrolled in classes, the course may not have started or been published yet.

Click [here](#) for instructions to check your Class registrations in Self Service!

Canvas Courses won't appear in your Canvas Dashboard and be available to open until the first day of the Semester/Term OR the first day the class starts!

Click here for the [Academic Calendar](#), which shows important Term and Registration start dates along with yearly Academic Schedules.

Some courses may show in Future Enrollments. The All Courses view lets you see any course still available to you, past or present. **A** **A** **A** **A** **A** **A** **A** **A** **A** **A** **A** **A**
